

"We have introduced EMCARPOOLCLUB in North America, South America, Europe and Asia as a volunteer non-profit organization that offers the carpool matching service exclusively for ExxonMobil staff members. Carpoolworld provides a great, fit for purpose, private carpool group solution."

*- Theo Ruigrok, President, EMcarpoolClub, Houston, TX*

"Carpoolworld.com ha brindado a nuestros 2,500 colaboradores una herramienta para organizar viajes de carpooling al lugar de trabajo que es amigable para el usuario, facilitando la comunicación y haciéndola más eficiente. El equipo de Carpoolworld ha sido de gran ayuda para la personalización de la herramienta y estamos muy satisfechos con el servicio."

*-Daniel Vigil, Development Manager - Information Services, Transactel powered by Telus, El Salvador and Guatemala*

"We have been really happy using Carpoolworld to provide the online carpool matching service for the University of Wollongong for the past three years."

*- Jenny Halldorsson, Transport Project Officer, University of Wollongong, Australia*

"Carpoolworld is always prompt and accurate in providing us with current data on new carpool participants."

*- ABQ-Ride, Albuquerque, NM*

CarpoolWorld is proud to be the carpool group service of choice for large and prestigious businesses, universities, hospitals and transportation authorities across the United States and around the world for more than ten years. Group Services Since 2000.**

## Start up and run your own carpool matching web site!

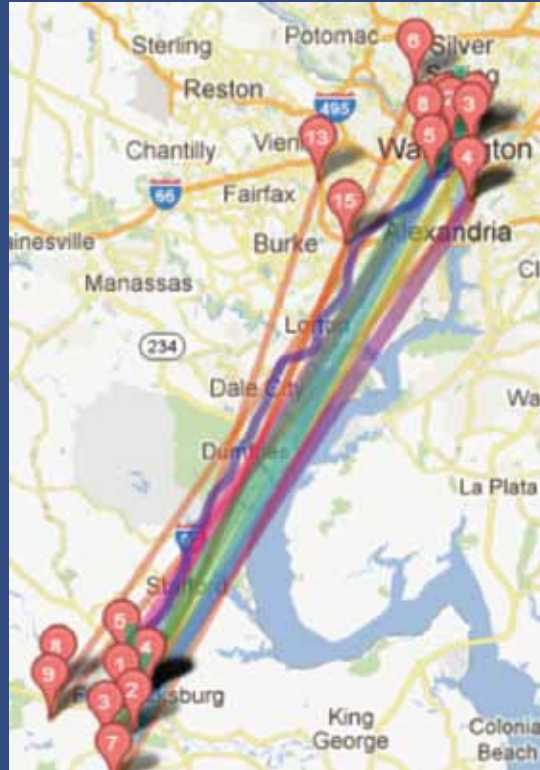

We all know that too much traffic is wasting time and money, congesting our roadways, and killing the environment!

A CarpoolWorld carpool group will allow your staff and employees to find their ideal rideshare partners within your organization instantly.

Plus, you can use our innovative transportation emergency module to send mass notifications, with alternate rideshare information, to your entire organization in the event of any disruption to your normal transportation network or offices.

✓ Users input their origins (homes), destinations, and schedules, and find their best matches instantly.

*Actual Carpoolworld graphical carpool match list.  
Map data ©2017 Google.*

✓ Then they contact each other to share their commutes and costs.

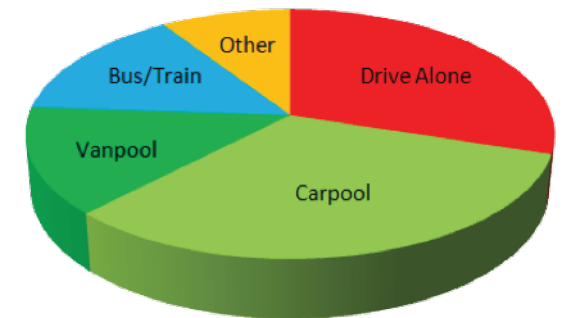

✓ Customize your co-branded CarpoolWorld web portal with your own texts and images.

✓ Restrict your carpool group membership based on email domain or open it to the public.

## Achieve your transportation efficiency program objectives.

✓ CarpoolWorld is completely automated. Just email your new carpool portal URL to your users, or provide a link on your company intranet, and your users can start finding their ideal rideshare partners immediately.

✓ CarpoolWorld includes many features to promote and measure your transportation efficiency program including our flexible commuting mode reporting system with miles saved and carbon footprint analysis.

CarpoolWorld is a software-as-a-service (SaaS) solution. No technical effort is required from our clients, but our team will happily work with your team as needed to integrate our systems.
